**DISASTER STRIKES HAITI AGAIN!  
YET, GREAT IS GOD'S FAITHFULNESS!**

*Lamentations 3:22-24*

## STRUCK DOWN BUT NOT DESTROYED

**THE ROAD BACK TO SUBSISTANT POVERTY:** Set backs seem to be the norm in the nation of Haiti. This is a nation whose people continue to exist and make small strides, in spite of a history steeped in corrupt leadership, massive loss of more than 300,000 lives due to the 2010 earthquake, cholera, as well as, other deadly diseases and now, Hurricane Matthew. The shedding of tears, shaking of heads and wringing of hands will not bring the relief that they need or seek.

**WHAT CAN WE DO?:** We can pray and remind Haitian people that God will help them through this and that they are not alone. See Lamentations 3: 22-24:

Great is God's Faithfulness!

They can find hope in Him.

They can receive help from God's caring people.

**HOW WE HAVE RESPONDED:** "...

Shortly after the hurricane Hope for Caribbean Kids, Inc. sent \$6,000, thanks to faithful, quick acting donors, to pay for food, garden seeds and water purification products to help prevent a potential cholera epidemic. **THANK YOU!**

## JOIN FORCES WITH US TO GO THE EXTRA MILES!

**HELP US REPLACE THEIR SCHOOL:** It was reported that more than 1,000 people in Haiti died as a result of Hurricane Matthew. However, we work in the southern mountains where there was no loss of life. In Mare Blanche we lost a school building. We need money to have it torn down and replaced by a new school.

**HELP US REPLACE THE ROOF:** We lost the roof off the home where our pastor, his wife, and baby were living with another family.

**HELP US BUILD A HOME FOR OUR YOUNG PASTOR AND FAMILY:** Pastor Jean Thomy Perime and his family were homeless before the hurricane. A kind family had taken them in.

**HELP US PROVIDE FOOD AND SEEDS FOR DISPLACED FAMILIES:** Many people have lost their homes and everything that they owned: food, clothing, animals, and gardens. And, of course, in the gardens were the seeds for the next crop. They live off the land which was already in crisis due to erosion of the top soil caused by previous storms and overharvesting of trees. Their gardens were already producing a meager yield. **THEY ARE IN DIRE STRAITS.**
